Senior .Net developer (PSE)

Description

Experience: 7 to 10 years

Job Location: Mahape, Navi Mumbai

Job Mode: Work from office and can join Immediately

Role & Responsibilities:

- Design, develop, test, and maintain enterprise-level applications using .NET technologies (C#, ASP.NET, .NET Core) and React frameworks.
- Work with stakeholders to understand requirements and translate them into scalable and secure solutions.
- Lead and participate in architectural decisions, code reviews, and application design discussions.
- Ensure best practices in coding, testing, deployment, and security.
- Mentor and provide technical guidance to junior developers.
- Collaborate with cross-functional teams (QA, DevOps, UI/UX) to ensure high-quality software delivery.
- Troubleshoot and resolve application issues in a timely manner.
- Participate in Agile/Scrum ceremonies and contribute to sprint planning and estimations.

Key Skills Required:

- Strong experience in C#, ASP.NET MVC/Web API, .NET Core/.NET 6+
- Solid knowledge of Object-Oriented Programming and design patterns.
- Proficiency in RESTful services, JSON, and API development.
- Experience with Entity Framework (EF Core) and LINQ.
- Strong understanding of SQL Server and T-SQL (stored procedures, triggers, performance tuning).
- Hands-on experience with JavaScript frameworks (Angular, React preferred).
- Familiarity with Azure services and CI/CD pipelines.
- Experience with DevOps practices and version control systems (Git, TFS).
- Understanding of unit testing frameworks (e.g., MSTest, NUnit, xUnit).
- Experience working in Agile/Scrum environments.

Nice to have:

Knowledge / experience in SharePoint online (list and Libraries, out-of-the-box features) and Power Platform (PowerApps, Power Automate, PowerBI)

Preferred Qualifications:

- Bachelor's degree in computer science / IT or related field.
- Azure developer or Azure DevOps certification is a plus.
